MSc Computer Networks, Northumbria
University, UK.

Experience: 5 years in IT Support
Location: Australia (Adelaide)
Languages: English, Hindi, and Marathi
I lived in: Australia, United Kingdom, and India

Expertise at a glance

As CCC Virtual Workshop Producer, my function is to welcome the participants onboard and make sure that the workshop runs smoothly on the technical level. When participants lose connection, I help them join us again. I am also in charge of putting people in and out of their virtual breakout rooms and all the other features that are necessary for the workshop.

During my tenure of IT Support Engineer, I have solved issues of almost all kinds of Operating Systems, Software, Networks, and their configurations. I also have a good amount of experience on configuring and troubleshooting Windows Servers, Linux Servers, Computer Networking Equipment, VoIP, Web Hosting, and Virtual Conferencing. In this adventure with CCC, I love the challenge of adapting to technology as it evolves and offers new collaboration possibilities to our clients. I am experienced in providing IT Support to organizations as well as individuals and therefore I bring the same spirit and service level to the CCC Virtual programs.

My Resource Values are Perfection, Persistence, Excellence, and Fun

Professionally I put my heart into being there of service to everyone and doing my job to the best of my level.

I have seen that it is possible to achieve anything if we are constantly in action.

Three words that my clients often use to describe me are reliable, calm, and efficient.
